

About us

At Quality Care Services, LLC we are a qualified team of experienced and compassionate caregivers dedicated to providing personal home healthcare service to the elderly and the disabled. We uphold the highest personal and professional standards. While we are committed to assisting the elderly and disabled, we encourage them to maintain their independence right in the comfort of their own home.

We select each staff caregiver on the basis of demonstrated professionalism, human compassion and superior communication skills. Once selected, our caregivers undergo rigorous screening and training, including current state certification and licensing to guarantee that our clients are receiving top quality care.

“Thank you for the wonderful care your staff has provided for the care of my elderly mother. Over the past year both [caregivers] have worked together giving her the best Quality Care.” Cynthia Ludnsky, Daughter of client, Westport, CT

In choosing Quality Care Services your loved one will receive the same care provided in an assisted living facility but in the familiar surroundings of their home.

We work with families and physicians to develop daily care plans tailored to each client’s needs. When needed we will travel to nursing homes, assisted living facilities, hospitals and rehabilitation centers.

Because we believe that your loved one deserves the very best care — regardless of age or ability — you can trust our staff to provide outstanding overall care.

“My wife’s final illness required round-the-clock care. I turned to Quality Care Service...I found the [staff] to be gentle, considerate, punctual and helpful in many extra ways.”

John Stankard, Husband of client, Greenwich, CT

What we do:

Here are some of the services we provide:

Planning and participating in recreational activities such as cards, puzzles & storytelling

Respite Care

Light housekeeping — meal clean up, vacuuming, dusting and laundry

Meals prepared in the prescribed manner

Medication reminders

Shopping for client’s groceries

Transportation

What we won’t do

Our services do not include:

Pre-pouring medication
Purchasing or serving liquor
Assisting in exercise, treatment or application of braces
Driving clients vehicle (unless part of the plan)
Performing banking transactions

As a non-medical home care agency, we do not bill to private insurers.

Call us today to schedule a free initial in-home consultation and learn more about how our services can make life a little bit easier for you and your loved one.
